Dear Sue:

I just wanted to let you know that we are in the process of launching our updated website, and that links will change. As soon as the site goes live, we will be sending out a message to the Subpart W subscribers with the new web addresses. I'll copy you in on the message.

Tony Nesky

Subject: New EPA Radiation Protection Website to be Launched Today

The Radiation Protection Division is about to launch its updated website to meet the latest EPA standards. The new site will replace the old one at www.epa.gov/radiation.

EPA's new design deliberately limits navigation within the website. The overwhelming majority of hits on individual webpages come directly through searches, so the "back end" of the website has new keywords and metadata fields to aid search engines. A left-side menu lists key topic areas and links back to the home page. Not all pages are linked to this menu, but users should be able to find desired content with a search engine.

There will be new web addresses for all content. A server change makes it impossible to keep existing web addresses for popular web pages and documents. You may wish to inform your stakeholders of the changes. All users who try to access old bookmarked links will be redirected to our new homepage.

Please feel free to contact me if you need help locating content or have any questions.

The blueprint isn't necessary, but it gives the workgroup something to get them up to speed. We have a few new members (Susan Fairchild just joined this morning).

If we get shut down, does discovery make you "essential?"

Hi –

Well, I at least put it on my calendar, but it does conflict with another meeting, so we'll see which one I go to.... 😊 Do we still have a blueprint requirement even as a Tier 3 rule? I thought all of those process requirements went away.

Oh no, the discovery chaos will be in full force until the 10/31 deadline...

OAD - SAN 5860: Third Report to Congress: Highlights of the Diesel Emissions Reduction

Act Program

External Abstract: This is the Third Report to Congress about the Diesel Emissions Reduction Act (DERA) program. This report is mandated by Congress as part of the legislation authorizing DERA and covers estimated and actual results from DERA funding. DERA funding covers clean diesel projects as part of the national competitive program, the state program, the ports funding program, and the rebate program. This Third Report to Congress covers actual results from the Recovery Act, FY 2009/2010, and FY 2011. This report also has estimated program results from FY 2012 and FY 2013.

Current Workgroup Members:

Workgroup Chair: Elizabeth Etchells (202-343-9231)

OP Primary: Mark Corrales (202-564-7493)

New Tier Changes:

OAR - SAN 5281: NESHAP for Operating Uranium Mill Tailings - Amendments (Subpart W)

Down Tier 2 to Tier 3

Decision: Approved - Joel Beauvais (08/26/2015)

External Abstract: National Emission Standards for Hazardous Air Pollutants (NESHAP) Subpart W protects human health and the environment by setting radon emission standards and work practices for operating uranium mill tailings impoundments. The EPA is in the process of reviewing this standard. If necessary, the Agency will revise the NESHAP requirements for radon emissions from operating uranium mill tailings.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

SEP 23 2015

OFFICE OF
AIR AND RADIATION

Mr. Manuel Heart
Chairman, Ute Mountain Ute Tribe
P.O. Box JJ
Towaoc, Colorado 81334

Dear Chairman Heart:

Thank you for your July 27, 2015 letter to Administrator McCarthy requesting initial and follow-up consultations on the 40 CFR Part 61, Subpart W (NESHAP for Uranium Mill Tailings) and 40 CFR Part 192, Subpart F (Health and Environmental Protection Standards for Uranium and Thorium Mill Tailings) proposed rulemakings. The Administrator has asked that I respond on her behalf.

We appreciate your interest in having a single consultation meeting to address your comments regarding the proposed revisions to these rulemakings. As I described in my March 4, 2015 letter, we are happy to discuss your comments regarding both or either of these proposed rules before and after publication of the final rules. The EPA attendees at the meeting(s) will be senior agency officials with responsibility for the rules. However, please understand that we are unable to provide you with a final answer or resolution of your comments on either rulemaking until the Administrator signs the final rulemaking package. After signature of the final rules, we can speak more specifically about how the issues you have raised and the comments you have submitted were considered in the development of the final rules.

We value the input of the Ute Mountain Ute Tribe. We look forward to working with your staff to schedule a well-timed meeting and beneficial discussion of Subpart W and Part 192. Please have your staff contact Reid Rosnick ((202) 343-9563; rosnick.reid@epa.gov) or Ingrid Rosencrantz ((202) 343-9321; rosencrantz.ingrid@epa.gov) to address questions and discuss timing.

Sincerely,

A handwritten signature in blue ink, appearing to read "Janet G. McCabe".

Hi Reid,
During the last quarterly Subpart W update call, you indicated we were going to get a letter soon about our second request for consultation.
I haven't seen or heard anything since. What is the status?
Thanks,
Scott

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

SEP 23 2015

OFFICE OF
AIR AND RADIATION

Mr. Manuel Heart
Chairman, Ute Mountain Ute Tribe
P.O. Box JJ
Towaoc, Colorado 81334

Dear Chairman Heart:

Thank you for your July 27, 2015 letter to Administrator McCarthy requesting initial and follow-up consultations on the 40 CFR Part 61, Subpart W (NESHAP for Uranium Mill Tailings) and 40 CFR Part 192, Subpart F (Health and Environmental Protection Standards for Uranium and Thorium Mill Tailings) proposed rulemakings. The Administrator has asked that I respond on her behalf.

We appreciate your interest in having a single consultation meeting to address your comments regarding the proposed revisions to these rulemakings. As I described in my March 4, 2015 letter, we are happy to discuss your comments regarding both or either of these proposed rules before and after publication of the final rules. The EPA attendees at the meeting(s) will be senior agency officials with responsibility for the rules. However, please understand that we are unable to provide you with a final answer or resolution of your comments on either rulemaking until the Administrator signs the final rulemaking package. After signature of the final rules, we can speak more specifically about how the issues you have raised and the comments you have submitted were considered in the development of the final rules.

We value the input of the Ute Mountain Ute Tribe. We look forward to working with your staff to schedule a well-timed meeting and beneficial discussion of Subpart W and Part 192. Please have your staff contact Reid Rosnick ((202) 343-9563; rosnick.reid@epa.gov) or Ingrid Rosencrantz ((202) 343-9321; rosencrantz.ingrid@epa.gov) to address questions and discuss timing.

Sincerely,

A handwritten signature in blue ink, appearing to read "Janet G. McCabe".

Subject: Request for OSWER Workgroup Member SAN 5281

Good Morning,

At our last workgroup meeting we realized that we needed some RCRA advice and had lost our OSWER/RCRA member through retirement. I would like to request a replacement. In discussions with other workgroup members we would like to request one of the following people for the workgroup.

1. Jason Mills
2. Ernie (Ernesto) Brown

Thank you in advance for your consideration.

Reid
