(1) General Notes:

(1a) Tribal permit data are based on the Permit Management Oversight System (PMOS), a web-based system where States and Regions report the inventory and status of tribal and general permits.

(1b) Permit data above reflect data on the PMOS website as of 10/3/2016 and changes resulting from communications between EPA HQ and Regions.

(2) Permits are considered current:

(2a) if their expiration dates are not older than 180 days from the time of the end of the quarter (9/30/2016).

(2b) This column also accounts for facilities in PMOS where the application received date is not blank but is older than one year from the time of the download and the permit expiration and issuance fields are blank.

(1) General Notes:

(1a) Tribal permit data are based on the Permit Management Oversight System (PMOS), a web-based system where States and Regions report the inventory and status of tribal and general permits.

(1b) A single general permit covers many facilities. The counts/status for general permits represent the facilities covered by the general permit, not the general permit itself.

(1c) Permit data above reflect data on the PMOS website as of 10/3/2016 and changes resulting from communications between EPA and the Regions and States.

(2) Permits are considered current:

(2a) if their expiration dates are not older than 180 days from the time of the end of the quarter (9/30/2016).

(2b) For general permits, if the expiration date is missing, all facilities' coverages are not considered current unless the State or Region has provided supplemental data.
